

Form 13-31
(Rule 13-31)

COURT FILE NUMBER Q.B. No. 733 of 2021
COURT OF QUEEN'S BENCH FOR SASKATCHEWAN
IN BANKRUPTCY AND INSOLVENCY
JUDICIAL CENTRE SASKATOON
APPLICANT ABBEY RESOURCES CORP.

IN THE MATTER OF THE *COMPANIES' CREDITORS ARRANGEMENT ACT*,
RSC 1985, c C-36, AS AMENDED (the "CCAA")

AND IN THE MATTER OF A PLAN OF COMPROMISE OR ARRANGEMENT
OF ABBEY RESOURCES CORP.

SIXTH AFFIDAVIT OF JAMES GETTIS

I, James Gettis, of the City of Calgary, in the Province of Alberta, make oath and say as follows:

1. I am the President and sole director of Abbey Resources Corp. (the "**Company**"), and as such, I have personal knowledge of the facts and matters hereinafter deposed to, except where stated to be on information and belief, and whereso stated, I verily believe the same to be true.
2. Capitalized terms in this Affidavit have the same meanings ascribed to them in my Affidavit dated July 13, 2021, (the "**First Gettis Affidavit**") filed in these proceedings. In addition to the First Gettis Affidavit, I also make reference herein to my previous Affidavits filed in these proceedings, namely my affidavit dated July 28, 2021, (the "**Third Gettis Affidavit**") and my affidavit dated August 19, 2021, (the "**Fifth Gettis Affidavit**").

Update on the Company's Operations

3. The Company has continued to carry on its natural gas production and sales operation in the ordinary course to the greatest extent possible in light of its ongoing efforts to restructure its affairs in these proceedings.
4. Immediately following its entry into CCAA proceedings, the Company proceeded to contact all of its key vendors and contractors to advise as to its status and to confirm that the Company was in a position to continue to contract with such parties. While certain vendors and contractors have expressed reluctance to continue to provide goods and services to the Company in light of its entry into these proceedings, the majority of the Company's vendors and contractors have continued to work with the Company in the ordinary course. As such, the Company's operational effectiveness has not been materially compromised by virtue of any difficulties obtaining goods or services on account of the Company's entry into these proceedings.

5. The Company's average daily natural gas production has remained stable throughout August and September of 2021. Attached, collectively, as Exhibit "A" of this Affidavit are copies of gas bulletins prepared internally by the Company showing the Company's natural gas production for the month of August 2021 and the month of September, through to September 19. The Company's average daily natural gas production for August of 2021 was 10,543 GJ/day. The Company's average daily natural gas production for September of 2021, through to September 19, was 11,190 GJ/day.
6. The Company has continued to receipt natural gas sales revenues in the ordinary course from its purchaser, Twin Eagle. As is reflected in the Company's most recent cash-flow statements, the Company receipted \$1,087,105 and \$944,474 in natural gas sales revenue in August and September of 2021, respectively.
7. I am attaching a copy of the Company's updated cash flow statement as Exhibit "B" of this Affidavit. As is reflected in the Company's most recent cash flow statement, the Company is of the view that it remains in a position to fund its operational costs and the costs of its restructuring without the need to obtain interim financing or to generate additional cash flow by liquidating its assets. Indeed, given the Company's forecasted increase in revenues beginning in December of 2021 - i.e., the month in which the Company will receipt its revenues for November of 2021, when it can begin to sell natural gas at higher rates - the Company anticipates that it will be generating sufficient surplus cash flow to begin to allocate funds towards components of its restructuring plan, such as potential decommissioning and reclamation projects or a potential fund constituted to pay amounts owed to its creditors as part of a plan of arrangement.
8. The Company has continued to work closely with the Monitor. The Company, together with its counsel, conducts a weekly progress meeting with the Monitor and its counsel. The Company employs best efforts to promptly share with the Monitor details of significant developments that may present the future theoretical risk of material adverse changes to the Company's business. The Company has canvassed significant transactions - such as the pending surplus equipment sales and potential agreement with Twin Eagle discussed below - with the Monitor. When asked for information or documentation from the Monitor, the Company always makes best efforts to respond to all of the Monitor's requests for such information or documentation promptly.
9. The Company has also continued to remain engaged with its key stakeholders. As is discussed below and in the Affidavit of Aaron Tait (the "**Tait Affidavit**") of Millennium Land Ltd. ("**Millennium Land**"), dated September 30, 2021, the Company continues to work with surface rights holders to conclude amendments to its leasing arrangements. I am advised by the Company's restructuring counsel at DLA Piper (Canada) LLP, and I verily believe it to be true, that the Company's counsel has remained in contact with counsel for key stakeholders of the Company. Additionally, I sent an email to Chief Brady O'Watch of the CTK First Nation in September of 2021 to discuss the interests of the CTK First Nation

in the Company's restructuring. I have volunteered to meet with the Chief and Council of the CTK First Nation upon invitation by the Band to discuss how the CTK First Nation can benefit from the Company's restructuring.

Correction to Misstatement Regarding Number of Amended Surface Leases

10. In paragraph 57 of the First Gettis Affidavit, I stated that surface leases for 1,377 of the 2,363 Abbey Wells had been successfully amended as of July of 2021. Unfortunately, I made this statement in error. The software on which the Company relies to manage information relating to its surface leases does not allow the Company to readily show which of the surface rights holders have concluded amended leases. In calculating the number of amended surface leases, I relied upon a Microsoft Excel spreadsheet containing details of amended surface leases. The spreadsheet was not formatted to readily create a sum total of the number of amended surface leases. In manually selecting cells to create a sum total, I inadvertently double-counted certain surface leases and, in so doing, I personally came to an inaccurate calculation of the total number of surface leases successfully amended. In reviewing matters relating to surface lease amendments with Millennium Land, I recently discovered that my previous calculation was erroneous and that, in actuality, surface leases relating to only 804 of the 2,363 Abbey Wells had been successfully amended as of July of 2021.

Surface Rights Holders

11. The Company views engagement and negotiation with its various surface rights holders as being a critical component of its restructuring. In particular, the Company continues to endeavour to conclude amended surface leases with surface rights owners who have not yet entered into lease amending agreements with the Company. The Company continues to work closely with its land management contractor, Millennium Land, to achieve this aim. As is discussed in the Affidavit of Aaron Tait, dated September 30, 2021, both the preparation of amended lease agreements and engagement with individual surface rights owners are time-consuming undertakings. Consequently, the Company has only concluded one final amended lease since the commencement of these proceedings. However, the Company has concluded agreements in principle with 9 other surface rights holders since the commencement of these proceedings.

12. The Company has sent correspondences explaining the status of the Company's rights vis-à-vis the surface rights owners as a result of the Initial Order to 10 surface rights owners who had previously indicated an unwillingness to continue to grant the Company access under its surface leases. The majority of such owners have since retracted their opposition to the Company accessing its leased premises. However, certain surface rights owners continue to deny the Company access to leased property, notwithstanding the terms of the Initial Order. The Company has determined that it is not critically important that it immediately access any of the lands whose owners continue to refuse to grant

the Company access thereto. The Company intends to engage in further dialogue with the surface rights holders in question before seeking the further assistance of this Honourable Court compelling such surface rights owners to grant the Company access to leased property.

13. Since its entry into CCAA proceedings, the Company has paid annual rental amounts to freehold surface rights owners who had entered into amended surface lease agreements with the Company prior to August 13, 2021, whose lease anniversary dates came due in August of 2021. Going forward, The Company intends to pay annual rental amounts for freehold surface rights owners who have entered into amended surface leases at the end of the month in which the anniversary dates for such leases occur.
14. Following its entry into these proceedings and upon a detailed review of the matter, the Company determined that any annual rental amounts that came due to the Unsigned Lessors on surface lease anniversary dates prior to August 13, 2021, constitute pre-filing claims that the Company is prohibited from paying pursuant to paragraph 10(a) of the Initial Order. Accordingly, the Company determined that it is not in a position to pay rental amounts to Unsigned Lessors whose surface lease anniversary dates fall prior to August 13, 2021.
15. Additionally, the Company's own internal analysis shows that annual rental amounts payable to the Unsigned Lessors (which, for greater certainty, exclude the Crown and Indian Oil and Gas Canada) total approximately \$3,680,000. In support of this fact, I am attaching a copy of an internally generated spreadsheet containing particulars of the surface leases for the Unsigned Lessors as Exhibit "C" of this Affidavit. At this \$3,680,000 aggregate value, prorated monthly payments of annual rentals for all of the Unsigned Lessors would thus equal approximately \$306,000. It is the Company's view that payment of this amount monthly would significantly jeopardize the Company's ability to restructure successfully in these proceedings.
16. The Company has not yet made any rental payments to freehold surface rights holders who have not yet signed amended surface leases (collectively, the "**Unsigned Lessors**"). The Company intends to pay the Unsigned Lessors whose surface lease anniversary dates that have occurred or will occur subsequent to August 13, 2021, prorated rental amounts corresponding to the annualized *per diem* rental amount for the days falling between the surface lease anniversary date and January 5, 2022 (i.e. the expiry date of the Second Extension Order sought by the company). For example, for an Unsigned Lessor surface lease with an annual renewal date of October 10, 2021, and an annual rental amount of \$2,000, the Company would pay the Unsigned Lessor a total of \$482.19 (corresponding to \$5.48 annual prorated *per diem* multiplied by the 88 days between October 10, 2021, and January 5, 2022).
17. The Company has not yet implemented its plan to pay the Unsigned Lessors whose surface lease anniversary dates have fallen due between August 13, 2021, and the date hereof. However, the

Company is in the process of preparing to make such payments and intends to make payments as described above to such Unsigned Lessors.

18. The Company plans to continue to pay Unsigned Lessors whose surface lease anniversary dates have occurred on or subsequent to August 13, 2021, prorated amounts as it is granted further extensions in these proceedings. This is to say, the Company will make further prorated payments to the Unsigned Lessors following January 5, 2022, corresponding to the period between that date and the expiry of a further extension (presuming that this Honourable Court grants both the extension currently sought by the Company and a further extension in January of 2022). This plan is reflected in the Company's most recent cash flow statement.
19. In its Cash Flow Statement previously filed in support of its Application for a First Extension Order, the Company indicated that a total of \$84,831 would be paid to "existing lease" holders between August 13, 2021, and November 7, 2021. I further note that Note 11 to that Cash Flow Statement indicated that such amounts were "prorated starting August 13, 2021 per stay period." This portion of this iteration of the Company's Cash Flow Statement was intended to show prorated payments being made monthly to Unsigned Lessors with surface lease anniversary dates falling after August 13, 2021. Upon considering the matter further, the Company determined that the plan to pay Unsigned Lessors described above in this Affidavit is preferable to the plan contemplated in August of 2021, due to the fact that the Company will be required to process fewer total payments to the Unsigned Lessors.
20. The Company intends to continue to work diligently in conjunction with Millennium Land to continue secure the Unsigned Lessors' acceptance of amended surface leases. It is the Company's plan to include an adjustment in the terms of amended surface leases for Unsigned Lessors who have received prorated rental payments to account for such payments, such that the Unsigned Lessors and surface rights holders who have previously accepted the terms of the amended surface leases are treated equitably.
21. Additionally, the Company continues to explore opportunities to reduce surface lease rental payments using remedies that may be available to it under *The Surface Rights Acquisition and Compensation Act*, RSS 1978, c S-65.

Twin Eagle Contract

22. In September of 2021, the Company spent several weeks in discussions with Twin Eagle negotiating an arrangement for the sale of the Company's gas production following the expiry of the Company's hedging position with Twin Eagle on October 30, 2021. The Company explored several options for possible agreements with Twin Eagle, including the possibility of entering into another hedging agreement. Ultimately, the Company determined that it was not feasible to attempt to enter into a

hedging agreement. Given the Company's entry into these proceedings and its uncertain future as a result thereof, the Company anticipates that Twin Eagle or other industry participants would be unwilling to take on the risk of acting as a hedging counter party or would demand terms unfavourable to the Company.

23. The Company has recently come to an agreement in principle with Twin Eagle for the sale of its natural gas following October 31, 2021. I am attaching a partially redacted copy of a Gas Transaction Confirmation (the "**Twin Eagle Term Sheet**") delivered to the Company by Twin Eagle as Exhibit "**D**" of this Affidavit. The terms of the Twin Eagle Term Sheet provide that the Company will sell a minimum of 2,000 GJ/day of gas to Twin Eagle NGX AB-NIT (i.e., the daily market price for natural gas in Alberta), plus a negotiated sum *per* GJ, with the remainder of the Company's production over and above 2,000 GJ/day to be sold being sold at TEP (i.e., the daily market price for natural gas in Saskatchewan), less a negotiated sum *per* GJ.
24. The price variances from the applicable daily natural gas spot prices included in the Twin Eagle Term Sheet were discussed in confidence during the Company's negotiations with Twin Eagle. Such pricing details, being specific to the Company's pending agreement with Twin Eagle, are commercially sensitive. Accordingly, pricing details contained in the Twin Eagle Term Sheet exhibited in this Affidavit have been redacted.
25. Under an arrangement governed by the Twin Eagle Term Sheet, the Company's natural gas sales revenues will fluctuate with market prices following the expiry of its hedge with Twin Eagle. Fortunately, the Company's outlook for gas prices in the near future is favourable. The Company regularly obtains natural gas price forecasts from Phoenix Energy Marketing Consultants Inc. ("**Phoenix**"), a Calgary-based energy industry consultancy. I am attaching a copy of a recent natural gas price forecast obtained by the Company from Phoenix on September 27, 2021, as Exhibit "**E**" of this Affidavit. I note that, under Phoenix's model, average natural gas prices for the Alberta market are forecasted to exceed \$4.00/GJ throughout the winter of 2021 - 2022, peaking at over \$4.88/GJ in February of 2022.
26. The Company has disclosed the Twin Eagle Term Sheet, inclusive of the redacted pricing details, to the Monitor. On September 23, 2021, the Monitor advised the Company that it took no objection to the proposed transaction with Twin Eagle. The Company thus intends to execute and deliver to Twin Eagle a countersigned copy of the Twin Eagle Term Sheet in the immediate future.

Reversal of the Abbey - Optimum Transaction

27. Further to the statements contained within paragraphs 19 - 20 of the Third Gettis Affidavit and paragraphs 3 - 6 of the Fifth Gettis Affidavit, the Company has now had the opportunity to review its preferred course of action to reverse the Abbey - Optimum Transaction - i.e., by way of an Order of this

Honourable Court made under section 11 of the CCAA declaring the transaction void and providing that property purported to be transferred to Optimum PSI shall vest back in the name of the Company - with the Monitor in detail. It is the Company's understanding that the Monitor does not oppose the course of action proposed by the Company.

28. I am able to confirm that all tangible assets included in the Abbey - Optimum Transaction have remained in place since the swearing of the Fifth Gettis Affidavit, save and except for any mobile equipment that may have remained in the Company's possession, but moved between the Company's various facilities or well sites in the ordinary course of business.

Pending Surplus Equipment Sales

29. As is discussed at paragraphs 17 and 18 of the Third Gettis Affidavit and at paragraphs 7 and 8 of the Fifth Gettis Affidavit, the Company seeks to conclude pending sales for the disposition of certain surplus equipment the Company deems unnecessary for its present and future operational requirements.

30. As is stated at paragraphs 17 and 18 of the Third Gettis Affidavit, the Company seeks to close the following pending transactions for sales of surplus equipment:

- a. the sale of a Jenbacher J312 natural gas engine bearing Engine no. 4504351 to Steel Reef Infrastructure Corporation ("**Steel Reef**") for a purchase price of \$65,000, exclusive of any applicable sales taxes; and
- b. the sale of a 24" x 10' filter vessel bearing serial number SO5-081-001 MWP: 720 PSI with pump to XTO Energy Inc. ("**XTO**") for a purchase price of \$17,000, exclusive of any applicable sales taxes.

31. The Company has no relationship or material connection with either Steel Reef or XTO or, to my knowledge, any of either entity's parents and subsidiaries (if any), affiliates or principals.

32. The Company's agreement with the broker for these transactions, Fuelled Inc., entitles the broker to a 15% commission from pre-tax sale value for brokering sales of the surplus equipment. Accordingly, the Steel Reef and XTO transactions will generate net sale proceeds of \$55,250 and \$14,500, respectively.

33. The Company has obtained an appraisal (the "**Fuelled Appraisal**") for the values of its surplus equipment from Fuelled Appraisals, an entity affiliated with its broker. I am attaching a copy of the Fuelled Appraisal as Exhibit "**F**" of this Affidavit. I note that the valuation schedule appended to the Fuelled Appraisal exhibited herein has been redacted to remove valuations for all equipment, save for the above-mentioned items subject to the pending sales. The Company wishes to preserve the opportunity to sell additional surplus equipment during the course of its restructuring and has, therefore,

redacted these commercially sensitive values so as to preserve the integrity of potential future sales processes for the sale of such equipment.

34. I note that that the pending sale values for both of these pieces of equipment exceed orderly liquidation values and approach fair market values identified in the Fuelled Appraisal.
35. The two sales that the Company seeks to close are all for surplus equipment presently or originally within the boundaries of the R.M. of Miry Creek. That such equipment is located within the R.M. of Miry Creek is coincidental and is not reflective of any deliberate plan on the Company's behalf to liquidate property specifically located within the R.M. of Miry Creek.
36. At this time, Abbey is not seeking an Order of this Honourable Court for the distribution of proceeds. Rather, Abbey seeks to have sale proceeds held in trust pending discussions with stakeholders whose charges may remain attached to such proceeds.
37. The Company does not currently owe arrears of wages, salaries, or commissions to any of its employees. Additionally, the pending sales described herein represent only a small fraction of the Company's assets. Consequently, the Company does not anticipate that closing the pending sales will jeopardize the Company's ability to pay any wages, salaries, commissions, compensation or disbursements owing to any of its employees.
38. The Company's restructuring counsel has contacted counsel for its stakeholders whose security or interests may be affected by the pending Surplus Equipment Sales to solicit comment on the pending sales in advance of the October 7, 2021, hearing scheduled in these proceedings. I am attaching a copy of an email dated September 27, 2021, from the Company's counsel to counsel for the R.M. of Miry Creek and the province of Saskatchewan's Ministry of Energy and Resources ("**MOER**") as Exhibit "**G**" of this Affidavit.

ASCP Funding

39. Further to my remarks at paragraph 89 of the First Gettis Affidavit, the Company continues to seek to conclude an arrangement that would allow it to access ASCP funding from the Government of Saskatchewan's to facilitate decommissioning, abandonment and reclamation of its unproductive well sites.
40. As was noted at paragraph 10 of the Fifth Gettis Affidavit, the Company obtained a copy of the federal-provincial funding agreement (the "**Funding Agreement**") between the MOER and Government of Canada's Ministry of Finance pursuant to which the Government of Canada has made funding available for ASCP. As the MOER provided a copy of the Funding Agreement to the Company's counsel on the

condition that it be held in confidence, the Funding Agreement has been deliberately omitted from the exhibits to this Affidavit.

41. Having now reviewed the Funding Agreement in detail through its restructuring counsel, the Company takes the position that the Funding Agreement does not prohibit the MOER from making ASCP funding available to the Company, notwithstanding the Company's insolvency or its non-payment of certain liabilities, such as municipal taxes.
42. The Company also wishes to involve representatives from the federal Ministry of Finance in discussions with the MOER to seek confirmation that allowing the Company to access ASCP funding will not, in the view of the Ministry of Finance, cause the MOER to breach the Funding Agreement. On the advice of its restructuring counsel, the Company has elected to refrain from engaging with the federal Ministry of Finance while the "caretaker convention" - i.e., the policy of curtailing undertakings of the Government of Canada during federal elections - remained in place.
43. The Company intends to continue to work towards putting forward a proposal to the MOER regarding ASCP funding in the near future, with a view of engaging with the MOER on this issue well in advance of the Company's Application for a Third Extension Order.

MOER Request for Risk Assessment

44. On September 3, 2021, the Company received a Request for Risk Assessment from the MOER concerning the Company's pipeline infrastructure. I am attaching a copy of the September 3, 2021, correspondence from MOER containing the Request for Risk Assessment as Exhibit "H" of this Affidavit. Therein, the MOER asked the Company to conduct a risk assessment analysis of its pipeline infrastructure for the purpose of developing a mitigation plan to reduce the failure rate of the Company's pipeline infrastructure. The Company intends to comply fully with the MOER's request for a risk assessment analysis and has already engaged with the MOER's representative on this issue to review details of the MOER's request as the Company prepares the risk assessment analysis.
45. The Company anticipates that professional costs associated with the completion of the risk assessment analysis will total approximately \$25,000. The costs of remediating issues are not reflected in the Company's cash flow statement at this time, as it is anticipated that the Company's anticipated remediation plan (presuming the Company's anticipated pipeline remediation plan is approved by MOER) will not be implemented until some point in 2022. However, the Company does not anticipate that the costs of implementing the Company's anticipated plan to address issues respecting the pipeline infrastructure in question will jeopardize its ability to continue to carry on business or restructure its affairs during the course of these proceedings.

Licensing Issue with TSASK

46. The Company uses 135 pieces of equipment that require annual licensure pursuant to *The Boiler and Pressure Vessel Act, 1999*, SS 1999, c B-5.1 (the “**BPVA**”). On or about April 26, 2021, Technical Safety Authority of Saskatchewan (“**TSASK**”) provided the Company with an invoice (the “**TSASK Invoice**”) in the amount of \$10,793 for licence fees for the 135 pieces of equipment that require licensure the period between July 1, 2021, and June 30, 2022. A copy of the TSASK Invoice is attached as Exhibit “**I**” of this Affidavit. The Company did not pay the TSASK Invoice, which came due on July 1, 2021, prior to its entry into these proceedings.
47. In consultation with the Monitor, the Company determined that it is prohibited from paying the whole of the TSASK Invoice, as at least a portion of the amount payable thereunder constitutes a pre-filing claim. However, in consultation with the Monitor, the Company determined that it was in a position to pay a prorated portion of the TSASK Invoice, representing the period between August 13, 2021, (i.e. the date of the Company’s entry into CCAA proceedings) and June 30, 2022. The Company calculated this amount at \$9,491.92. The Company proposed to pay the prorated value of the TSASK Invoice to TSASK. However, a representative from TSASK has advised the Company that TSASK will refuse to grant the Company licensure required under the BPVA unless the full value of the TSASK Invoice is paid. I am attaching a copy of the email exchange between myself and the representative from TSASK wherein this representation was made as Exhibit “**J**” of this Affidavit.
48. On September 23, 2021, the Company’s restructuring counsel sent a correspondence to TSASK’s chief executive officer laying out the Company’s position vis-à-vis TSASK. A copy of the September 23, 2021, letter to TSASK is attached as Exhibit “**K**” of this Affidavit. I note that the said letter cautioned TSASK that the Company may be required to take action against TSASK in these proceedings if TSASK did not confirm that it would accept the prorated amount and that it would grant the Company the licensure required under BPVA.

SAMA Appeal

49. As was noted at paragraph 48 of the First Gettis Affidavit, the Company brought forward an appeal (the “**SAMA Appeal**”) of the decision of 2021 SKQB 100, which concerned the Company’s Application for Judicial Review of SAMA’s methodology for assessing the value of shallow gas well properties. On September 23, 2021, the SAMA Appeal was set down for a hearing before the Saskatchewan Court of Appeal to take place on November 10, 2021.
50. It remains the Company’s intention to prosecute the SAMA Appeal through to its completion by appearing at the SAMA Appeal hearing in November. I am advised by the Company’s litigation counsel at Anderson & Company, Barrister’s and Solicitors, and verily believe it to be true, that anticipated professional fees to be incurred in reviewing the Factum filed by SAMA and preparing for and attendance at the SAMA Appeal hearing will likely range between \$5,000 and \$10,000.

Adjournment of Rent Review Hearing

51. Prior to its entry into these proceedings, the Company had initiated a Rent Review Hearing before the Province of Saskatchewan's Surface Rights Board. Therein, the Company sought relief against one of its surface rights owners, Andjelic Land Inc.
52. The Rent Review Hearing had been scheduled to take place on September 7, 2021. Shortly following the Company's entry into these proceedings, the Rent Review Hearing was adjourned, *sine die*, upon the Company's request. The Company intends to assess its position in this matter and consult with the Monitor to determine whether proceeding with the rent review hearing against Andjelic Land Inc. is in the best interests of the Company's efforts to restructure.

Discontinuance of Tax Appeal

53. Shortly following its incorporation in the early 2010s, the Company issued a number of flow-through shares to its early investors. Flow-through shares enable shareholders of corporations in the natural resource sector to directly claim a portion of deductions associated with certain development expenses that would ordinarily be claimable by the corporation.
54. The subscription agreements pursuant to which the Company issued flow-through shares to its shareholders require the Company to indemnify shareholders for tax losses sustained by shareholders as a result of any reassessment of the Company's income tax filings. The applicable subscription agreements did not grant any security in the assets of the Company to the shareholders who received a distribution of the flow-through shares.
55. In 2014, the Canada Revenue Agency ("**CRA**") re-assessed the Company's tax filings for the 2010 - 2012 tax years to disallow the Company's claim to disallow the Company from claiming certain development expenses as falling within the category of development expenses that would enable the shareholders of the flow-through shares to directly claim the Company's deductions in their personal capacities. In 2018, the Company appealed the reassessments of the CRA before the Tax Court of Canada in the matter of 2018-607(IT)G (the "**Tax Appeal**").
56. While the CRA did not assess any additional taxes payable directly by the Company as a result of Notices of Reassessment, the Company nevertheless determined it prudent to appeal the re-assessment of the Company's tax filings in order to minimize potential liabilities to its shareholders arising from its obligation to indemnify such shareholders for tax losses associated with the flow through shares at the time it commenced the Tax Appeal in 2018.
57. The Company has recently been advised by its former tax litigation counsel at Navigator Law LLP, and I verily believe it to be true, that professional fees required to litigate the Tax Appeal (inclusive of the

fees of the expert witness retained by the Company's tax litigation counsel) would have likely exceeded \$100,000.

58. In consultation with the Monitor, the Company determined that carrying on with the Tax Appeal was not in the best interests of the Company's plan to restructure its affairs given that the anticipated professional fees associated with conducting the Tax Appeal are significant and that success in the Tax Appeal would not decrease the Company's liabilities owing to secured creditors. Accordingly, the Company made the decision to discontinue the Tax Appeal. I am advised by the Company's solicitors at DLA Piper (Canada) LLP, and verily believe it to be true, that arrangements have been made with CRA for the without-costs discontinuance of the Tax Appeal and that the matter will be concluded shortly once the appropriate documentation has been filed with the Tax Court of Canada.

Conclusion and Relief Sought

59. Further to my remarks above, in furtherance of its efforts to restructure in these proceedings, the Company intends, to:

- a. continue to carry on its natural gas extraction business as far as is possible in the ordinary course;
- b. negotiate and conclude amended lease agreements with surface rights owners, working in close consultation Millennium Land;
- c. engage with the MOER and the federal Ministry of Finance to endeavour to secure ASCP funding;
- d. prosecute the SAMA Appeal; and
- e. begin formulating a viable proposal seeking a fair compromise that will enable the Company to restructure its affairs such that it is able to continue carry on business as a going concern following its exit from these proceedings.

60. The Company, having made every effort to continue to act in good faith and with due diligence since its entry into these proceedings, thus seeks:

- a. a Second Extension Order, further extending the provisions of the Initial Order for an additional period of 90 days;
- b. Sale Approval and Vesting Orders for the pending transactions for the sale of surplus equipment; and

c. a Vesting Order reversing the Abbey - Optimum Transaction.

61. I make this Affidavit in support of the Company's Application for a Second Extension Order and other relief under the CCAA and for no other or improper purpose.

SWORN before me at the City of)
Calgary, in the Province of)
Alberta, this 1st day of)

FORM PD1

(Enacted March 25, 2020)

(Amended August 7, 2020)

DECLARATION OF LAWYER WHO HAS WITNESSED DOCUMENTS

VIA ELECTRONIC MEANS

I Kevin Hoy, of Calgary, in the Province of Alberta, a Lawyer, did on October 1, 2021 witness James Gettis sign the following documents via electronic means:

1. October 1, 2021, Affidavit of James Gettis
- 2.
- 3.

Pursuant to Law Society of Saskatchewan Practice Directive 1, issued March 25, 2020 and amended on August 7, 2020, I have turned my mind to the risks associated with the witnessing of documents via electronic means. I have assessed the following risks, and have answered "yes" or "no" to indicate where I have identified concerns:

1. Have I identified any indicia that the transaction might be fraudulent? No
2. Did I identify concerns, including the physical presence of a third party in the company of my client while they were signing the documents, suggesting that there is a risk that the client may be subject to undue influence or duress? No
3. Did I identify concerns about my client's understanding about the documents they are executing? No
4. Did I identify concerns about my client not having an adequate opportunity to ask questions about the document being signed? No

Where I have indicated "yes" to the statements above, I managed the risks by the following means:

Attached hereto is a screen capture of my client with their photo identification that was presented to me via electronic means during the session where the above noted documents were executed.

I DO SOLEMNLY DECLARE that the statements contained in this form are complete and true in every respect. AND I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath.

October 1, 2021

Purpose:

The Statement of Projected Cash Flow has been prepared by the Company's management pursuant to Section 10 (2)(a) of the Companies' Creditors Arrangement Act (the "CCAA"). It is being filed specifically for the purposes contemplated in that section and readers are cautioned that it may not be appropriate for other purposes.

In addition, the Statement of Projected Cash Flow has been prepared based on assumptions regarding future events, therefore actual results may vary from the estimates presented herein and these variances may be material.

ABBEE RESOURCES CORP
Statement of Weekly Projected Cash Flow
For the period from August 13,2021 to February 5, 2021

Court No.: 733 of 2021
Estate No.: 23-035247

General Notes & Assumptions

Amounts are represented in Canadian dollars

Specific Notes & Assumptions

- 1 Opening cash balance
- 2 Estimated revenue based on sales volumes (10,648 GJ/d) and flat \$3.00 per GJ price till November 30 2021 calendar month (October 2021 production month), then Estimated sales volume based on 10,500 GJ/d and Aeeco Strip price posted on September 27, 2021
- 3 Prepaid Gas Volume buyback (netted from Gas Settlement Statement) - This ends October 31, 2021 Production Month
- 4 Crown Royalties are current and are auto-debit, all other Royalties will be paid starting August 13, 2021.
- 5 Monthly Shop and Yard Rental to third party
- 6 Monthly Gas Transportation on Transgas (netted from Gas Settlement Statement)
- 7 Field Contract Operators paid on an hourly rate, estimated 2 week period per pay period
- 8 Essential Services for Field Operations includes Production Costs, Chemicals & Treatments, Safety & Environmental, Maintenance & Repairs and Trucking and Labour costs
- 9 Operating Expenses that are Auto-debit to the account (Intercom, Saskpower, Sasktel, Shaw, XplorNet)
- 10 Annual Surface Lease Rentals for the executed lease agreements based on area utilized (amendment executed before August 13, 2021)
- 11 Annual Surface Lease Rentals (amendment still to be executed by freehold surface rights owner; payments prorated from surface lease anniversary date to expiry of stay period)
- 24 Annual Crown lease rentals (payments based on annual \$306,000, average monthly estimate of \$25,500, subject to forthcoming confirmation from the Crown)
- 25 Annual Carry the Kettle lease rentals (payments prorated from surface lease anniversary date to expiry of stay period)
- 12 Field Vehicle Lease (Auto-debit to the account), Annual Corporate Insurance was agreed to be paid over 3 months (Week 7, Week 12, Week 16) Forecast has been updated to reflect the agreement
- 13 Contingency for Miscellaneous Operating Expenses
- 14 Salary and Wages for Field Employees (Payroll service utilized- 2 week pay period)
- 15 Calgary Staff - Administration / Management
- 16 Life Insurance and Health Benefits (Auto-debit to the account)
- 17 Calgary Office Rent (monthly rent paid when invoiced)
- 18 Calgary Office Expense (Supplies, Postage, Courier, Bank Service Charge)
- 19 Contingency for Miscellaneous Calgary Office Expenses
- 20 Well Head Shelters
- 21 Disposal well (drill, complete, tie-in), existing disposal well no longer viable
- 22 Restructuring costs for Trustee and Legal (MNP, DLA Piper, Anderson and Company)
- 23 True-up of actuals to estimates on cash balance projections. Cash opening and closing balance are reflective of actual cash available.

GAS TRANSACTION CONFIRMATION

Date Generated: September 21, 2021

Contract: GasEDI-Abbey Resources

1. BUYER: Twin Eagle Resource Management Canada, LLC	SELLER: Abbey Resources Corp.	BASE CONTRACT DATE: July 28 2016	TRADE DATE: September 21 2021
---	---	--	---

2. TRANSACTION DETAILS:

Transaction	Start Date	End Date	Quantity	Commodity Price (Settles in Cdn\$)	Service Quality (Int., Firm, or EFP)	Delivery Point	Delivery Pipeline
1862253 / 2274895	November 01 2021	March 31 2022	2,000 GJ Daily	See Section 3.1	Firm	TransGas Generic Field Zone	TransGas
1862253 / 2274896	November 01 2021	March 31 2022	7,000 GJ Daily	See Section 3.2	Firm	TransGas Generic Field Zone	TransGas

3. SPECIAL PROVISIONS, INCLUDING PRICE DETAILS (if any):

3.1 NGX AB-NIT Same Day Index 5A (CGPR) CAD/GJ (1) + ██████ Cdn/GJ

(1) The price per unit for the Delivery Period as published in Canadian Enerdata Ltd.'s "Canadian Gas Price Reporter", table "NGX AB-NIT same Day Index #", column "Avg.", row "5A Arithmetic Avg.****" (CAD/GJ). Does not include day deals done on Friday, during the weekend, or on non-trading days determined by NGX that fall in conjunction with the weekend . The weekend # is used as a proxy for each of these days.

3.2 TEP Index (Internal) (1) - ██████ Cdn/GJ

(1) The price per unit for each "flow day" as reported for each such day in Gas Daily as published by Platts applicable to such calendar day under TEP Index (Internal)

This Confirmation is intended only for the addressee and may contain information that is legally privileged, confidential and/or exempt from disclosure under applicable law. Any review, retransmission, dissemination or other use of, or taking of any action in reliance upon, this information by persons or entities other than the intended recipient is prohibited. If you have received this communication in error, or are not the named recipient(s), please immediately notify the sender.

GAS TRANSACTION CONFIRMATION

Confirm Special Language:
Transportation Services

Twin Eagle Resource Management Canada, LLC ("TERMC") will accept all transportation assignments on a month-ahead basis from Abbey Resources Corp. ("Abbey"), both permanent and temporary, to facilitate the purchase of gas at Abbey's various meter points across Saskatchewan related to this transaction. All transportation costs incurred by TERMC from TransGas to receive gas from Abbey's various meter points will be passed on to Abbey at cost.

TERMC shall have the right to re-assign all transportation assignments, both permanent and temporary, back to Abbey at its discretion at any time if there is a material change in the credit worthiness of Abbey. Effective the end date of the transaction, TERMC will assign back to Abbey any and all transport agreements that may be in effect beyond the end date whether previously assigned or that may have been contracted for by TERMC for the purpose of transporting Abbey volumes.

Location and Receipt Meters

The Included Receipt Points to facilitate the purchase of gas for this transaction at Abbey's meter points include, but are not limited to:

- Meter 324 – MIRY CREEK
- Meter 325 - CRAMERSBURG
- Meter 6261 - LACADENA
- Meter 6262 – SHACKLETON ABBEY
- Meter 376 – ABBEY RESOURCES
- Meter 335 – KYLE ABBEY

Contract Quantity

TERMC shall purchase all gas produced by Abbey on a best effort basis based upon the following :

1. Fixed Price Quantity: A fixed price quantity shall be deemed gas produced from the above meters up to 2,000 GJ/day. The Fixed Price Quantity is a best efforts basis and if on any day during the delivery period, Abbey produces less than the Fixed Price Quantity TERMC shall not charge any extra sales to Abbey to cover the shortfall on the Fixed Price Quantity.
2. Incremental Dedicated Production: Any and all volumes of gas produced from the Included Receipt Point meters over and above the Fixed Price Quantity are deemed Incremental Dedicated Production

Contract Price

1. Fixed Price Quantity: The contract price for each GJ of Fixed Price Quantity shall be NGX AB -NIT Same Day Index 5A (CGPR) CAD/GJ + [REDACTED] Cdn/GJ
 2. Incremental Dedicated Production: The contract price for each GJ of Incremental Dedicated Production shall be TEP Daily Average Price (TEP Index (Internal)) - [REDACTED] Cdn/GJ.
- The TEP Daily Average Price will be calculated as the daily weighted average price of the NGX listed trades for the applicable flow date at TEP listed as "NGX Phys, ID, 5a (CA/GJ), TEP". In the event no 5a TEP trades occur, the daily weighted average price of fixed price trades will be used "NGX Phys, ID, FP (CA/GJ), TEP". For any flow date where no trade data for the stated products exists, the weighted average for the flow date immediately preceding the flow date in question will apply.

5. (a) The above are the essential binding commercial terms of the Transaction in question. This Gas Transaction Confirmation (the "Transaction Confirmation") supplements, forms a part of, and is subject to a base contract executed between the parties covering physical natural gas transactions (the "Contract"). If the parties hereto have not executed a Contract, the terms and conditions of the GasEDI Base Contract for Sale and Purchase of Natural Gas, as published on August 31, 2005 (the "GasEDI") are hereby incorporated into this Transaction Confirmation. All provisions contained in the GasEDI are in full force and effect and shall govern this Transaction Confirmation except as expressly modified herein, until such time that a Contract is executed between the parties. Upon execution and delivery of such Contract, this Transaction Confirmation shall supplement, form a part of, and be subject to such Contract without further amendment or modification. In the event any inconsistency exists between this Transaction Confirmation and the GasEDI and/or Contract, this Transaction Confirmation shall govern.

(b) If this Transaction Confirmation correctly sets forth the terms of the Transaction, please confirm by signing below and returning this Transaction Confirmation via fax or email within two (2) Business Days from receipt of this Transaction Confirmation. If you believe that the Transaction Confirmation does not correctly set forth the terms of the Transaction, identify the purported error on the Transaction Confirmation and return via fax or email. Failure to reply or object within such time period shall constitute acceptance of the terms set forth in the Transaction Confirmation, absent manifest error.

Dear Mr. Gettis,

**Re: Assessment of Operating Oil & Gas Assets
South Western Saskatchewan Surplus (Operating) Assets**

Fuelled Energy Marketing Inc. (Fuelled) is pleased to submit the attached Replacement Value, Fair Market Value, Orderly Liquidation Value and Forced Liquidation Value Report for your review.

The purpose of this Report is to establish the current above stated values of equipment within Abbey Resources South Western Saskatchewan Surplus (Operating) Assets.

Although Fuelled is currently contracted by Abbey Resources as a consignment vehicle for surplus assets – Fuelled certifies that neither we nor any of our employees have any present or future interest in the appraised property.

We welcome your comments once you have had the chance to review this Report.

Sincerely,

Ajay Singh, P.Eng, CPPA
VP Business Development – Fuelled

Summary

Dear Mr. Gettis,

Fuelled Appraisals Inc. (Fuelled) has prepared the following valuation of fixed assets (Assets) of Abbey Resources (ABBEY). The valuations in the report are effective as of July 02, 2020.

Fuelled has been engaged by ABBEY to provide a written opinion to assess the values of the Assets using Replacement Value, Fair Market Value (FMV), Orderly Liquidation Value (OLV) and Forced Liquidation Value (FLV) scenarios.

Valuation Summary

ABBEY	FMV	OLV	FLV
Assets – Appendix I	\$6,265,000	\$3,759,000	\$1,879,500

- All values in Canadian dollars (\$CDN)

Based on Fuelled's analysis, data maintained in our working files and methodology outlined in this report, Fuelled estimates the **FMV** of the Assets to have a total value of:

- SIX MILLION TWO HUNDRED SIXTY-FIVE THOUSAND, as of July 02, 2020.

Based on Fuelled's analysis, data maintained in our working files and methodology outlined in this report, Fuelled estimates the **OLV** of the Assets to have a total value of:

- THREE MILLION SEVEN HUNDRED FIFTY-NINE THOUSAND, as of July 02, 2021.

Based on Fuelled's analysis, data maintained in our working files and methodology outlined in this report, Fuelled estimates the **FLV** of the Assets to have a total value of:

- ONE MILLION EIGHT HUNDRED SEVENTY-NINE THOUSAND FIVE HUNDRED, as of July 02, 2020.

The above summary should be reviewed in conjunction with the following report.

The appraisal and any supporting documentation have been approved and signed off by a certified Canadian Personal Property Appraiser (CPPA).

Sincerely,

Fuelled Appraisals

Ajay Singh, P.Eng, CPPA

I. Introduction

Client

Fuelled Appraisals was retained by ABBEY to provide valuation of certain assets belonging to ABBEY.

Intended User

This Appraisal is intended to be used exclusively by Abbey and is not intended for general circulation or distribution, nor is it to be reproduced in any matter other than outlined herein.

Purpose of Appraisal and Premise of Value

Fuelled Appraisals recognizes this assessment is being prepared for financing and valuation purposes. Fuelled Appraisals will estimate an assets value, based on factors such as cost, the income it generates, and its fair market value (FMV) compared to that of similar assets. The resulting appraisal figure will attempt to forecast the price an asset would likely sell for in a free market. This appraisal shall not be used for any purpose other than indicated.

Valuation Date

This appraisal and the opinions of the value expressed herein shall be effective as of September 09, 2021 (the "Effective Date")

II. Asset Overview and Summary of Value Conclusions

Asset Overview

The Assets appraised within this engagement are listed in Appendix I.

Based upon our analysis, data maintained in our work files, and the methodology outlined in the accompanying report, Fuelled estimates the

Fair Market Value (FMV) of the asset to be \$6,265,000, as of the effective date.

Orderly Liquidation Value (OLV) of the asset to be \$3,759,000, as of the effective date.

Forced Liquidation Value (FLV) of the asset to be \$1,879,500, as of the effective date.

III. Observations and Comments

The values set out in this appraisal are based on a review by Fuelled of previous appraisals completed, utilization of an in-house database, research through contacts in related industries, the list of assets and other materials supplied to Fuelled by ABBEY and our experience as certified appraisers. Changes may have been made, where considered appropriate by Fuelled, to indicate differences between the specific assets and assets sold in previous sales.

Fuelled has taken into consideration various factors considered relevant in the scenario including physical location of the assets, difficulty of removal, physical condition, adaptability, specialization, marketability, overall appearance, and appeal.

Available data and market comparisons may be up to 180 days old. Fuelled has observed a stabilization in values over the last 180 days.

Given the current market conditions, Fuelled determined economic obsolescence was not necessary.

This suite of equipment was catalogued by Fuelled in TBD. For the purposes of this appraisal, Fuelled assumes that the equipment has not been modified and is in similar condition to when it was originally catalogued.

IV. Scope of Work and Considerations

Assets such as real estate, leased equipment, third party property, spare parts, materials and supplies, and intangible assets have been excluded from this valuation as they have been deemed outside of the scope of this arrangement.

The scope of Fuelled's work did not include investigation of any financial data to substantiate present or prospective earning capacities of business operations in which the assets are currently employed. Unless stated otherwise, Fuelled has assumed prospective earnings would provide a fair return on the value of the assets.

The projections of value identified are subject to the analyses, observations, comments, limiting conditions and critical assumptions of identified below.

The projections of value identified are based upon analysis of the assets and a consideration and reconciliation of the **cost approach and the sales comparison (market) approach**.

The Appraisal Report provides a summary of the data, analysis, and reasoning used by Fuelled to come to the value identified herein. A copy of this report shall remain in our files and be retained for a period of at least 5 years after preparation, or at least 2 years after the final disposition of any judicial proceeding as required by the Records Keeping section of the CPPA. Fuelled has deemed the scope of work outlined above and in the Valuation Process section below to produce credible results for appraising assignment.

V. Valuation Process

Methodology

Fuelled employed the following procedures to determine the value conclusions rendered herein:

1. Review and analysis of asset records and other informational materials supplied by ABBEY
2. Utilization of certain data resources including, but not limited to, related auction houses, online database sites, original equipment manufacturers, and used machinery and equipment publications.
3. Review and Analysis of Fuelled proprietary in-house sales library and archives. Adjustments have been made, where applicable, to reflect differences between the specific Assets and that sold in previous sales.
4. Consideration of current market and geographical conditions for Assets of like kind.
5. Consideration of applicable functional and economic obsolescence factors.
6. Discussions regarding the following factors with various machinery and equipment suppliers, dealers, and manufacturers:
 - a. Marketability and timing issues,
 - b. General market conditions, and
 - c. Market trends and prices

7. Consideration of current auction, used machinery and equipment dealer, and alternate end user prices that may be realized from similar Assets, on an “as is condition, where is location” basis.
8. Consideration of the cost to acquire similar machinery and equipment, if available, and the expense and difficulty of removal of the Assets from their present locations.

VI. Valuation Theory

Approaches to Value

There are three generally accepted approaches to estimate value:

Sales Comparison (Market) Approach

The Sales Comparison (Market) Approach relies upon an analysis of recently consummated sales transactions and offering prices of similar property to arrive at an indication of the most probable selling price of the contemplated property. If the comparable data is not exactly like the items being appraised, the selling prices are adjusted to equate them to the selling characteristics of the subject property. Examples of possible adjustments include those for the age, condition, and capacity of the assets; the location, date, and type of sale (e.g., retail sale, auction sale, or asking price); and, when appraising under the concept of continued use, the value associated with putting the asset to use.

The logic behind the Sales Comparison Approach is the principle of substitution, wherein a prudent buyer would not pay more for a certain asset than the cost to acquire a similar asset of equivalent utility. The market typically consists of used equipment dealers, auction, liquidations, and public and private sales transactions. Fuelled Appraisals also relies on our transactional experience proprietary database of appraisal, liquidation, and auction results.

Cost Approach

The Cost Approach begins with current replacement cost of the contemplated property and deducts the loss in value caused by Physical Deterioration, Functional Obsolescence, and Economic Obsolescence.

As with the Sales Comparison Approach, the logic behind the Cost Approach is the principle of substitution, wherein a prudent buyer would not pay more for a certain asset than the cost to acquire a substitute asset of equivalent utility.

Income Approach

The Income Approach considers the value of the assets in relation to the present worth of future benefits from ownership and is typically measured through the capitalization of a specific level of income. This approach is seldom used for individual pieces of equipment because of the difficulty arising from assigning income to any fixed asset.

Fuelled Appraisal’s analysis included a consideration of all three approaches to value. The approaches were then utilized, and the resulting value conclusions were reconciled. Based upon our analysis The Sales Comparison Approach and Cost Approach were deemed appropriate for this valuation.

Alternate Use & Appropriate Market

The process of determining the Alternate Use & Appropriate Market of the subject Assets includes an analysis of the current use and alternative uses to identify what is profitable, legally permissible,

physically possible, and financially feasible, as relevant to the type and definition of value and the intended use of the appraisal.

Alternate Use & Appropriate Market in the context of personal property typically equates to choosing: (a.) analyze the property's current use and alternative uses as relevant to the type and definition of value and intended use of the appraisal; (b.) define and analyze the appropriate market consistent with the type and definition of value; (c.) and analyze the relevant economic conditions that exist on the effective date of the valuation, including market acceptability of the property and supply, demand, scarcity, or rarity.

As such, in the process of developing our conclusions of value, Fuelled Appraisals considered the appropriate market and level of trade for the Subject Assets, the availability of reliable market data, the market conditions as of the Valuation Date, and the marketing period consistent with the purpose and intended use identified above.

VII. Definitions & Terminology

The definitions and appraisal terminology identified below are taken from The American Society of Appraisers (ASA) 2005 second edition Machinery and Technical Specialties publication entitled "Valuing Machinery and Equipment: The Fundamentals of Appraising Machinery and Technical Assets" (pages 553 – 595).

Fair Market Value (FMV)

The estimated amount, expressed in terms of cash in Canadian dollars, that may reasonably be expected for an Asset in an exchange between a willing buyer and a willing seller, with equity to both, neither being under any compulsion to buy or sell, and both fully aware of all relevant facts, as of a specific date.

Orderly Liquidation Value (OLV)

The estimated amount, expressed in terms of cash in Canadian dollars, that could typically be realized from a liquidation sale, given a reasonable period of time to find a purchaser, with the seller being compelled to sell on an "as-is condition, where-is location basis", as of a specific date.

For the purpose of this appraisal, Fuelled Appraisals has considered a properly advertised and professionally managed privately negotiated sale scenario, over a period of 120 days, during normal business operations or while winding down operations, with the buyer responsible for dismantling and removal at their own risk and expense. In arriving at an opinion of value, Fuelled Appraisals has taken into consideration, among other things, the ability of the Asset group to draw sufficient prospective buyers to insure competitive offers. Any deletions or additions to the total Assets appraised could change Fuelled Appraisals opinion as to the projected recovery values set out in this Appraisal. If an acceptable price for the Assets cannot be negotiated within the specified time of the orderly liquidation, the final option would be to offer the Assets on a Forced Liquidation Value Basis.

Forced Liquidation Value (FLV)

The estimated amount, expressed in terms of cash, in Canadian dollars, that could be typically realized from a properly advertised and conducted public auction, with the seller being compelled to sell with a sense of urgency, on an "as-is condition, where-is location" basis, as of a specific date.

For the purpose of this Appraisal, Fuelled Appraisals has considered an unreserved public auction sale, held under present day economic trends, within 30 days of the effective date of this Appraisal, with the buyer responsible for dismantling and removal at their own risk and expense. In arriving at an opinion of value, Fuelled Appraisals has taken into consideration, among other things, the ability of the Asset group to draw sufficient prospective buyers to insure competitive offers. Any deletions or additions to the total Assets appraised could change Fuelled Appraisals opinion as to the projected recovery values set out in this Appraisal.

Non-Inspected Assets

An opinion as to recovery value based solely on the list of Assets supplied to Fuelled Appraisals by ABBEY, with the benefit of an actual on-site inspection. Recovery value shall depend on, among other things, condition of the Assets.

Physical Deterioration

A form of depreciation where the loss in value or usefulness of a property is due to the using up or expiration of its useful life caused by wear and tear, deterioration, exposure to various elements, physical stresses, and similar factors.

Functional Obsolescence

A form of depreciation in which the loss in value or usefulness of an Asset is caused by inefficiencies or inadequacies of the Asset itself, when compared to a more efficient or less costly replacement property that new technology has developed. Symptoms suggesting the presence of functional obsolescence are excess operating cost, excess construction (excess capital cost), over-capacity, inadequacy, lack of utility, or similar conditions.

Economic Obsolescence

A form of depreciation or loss in value or usefulness of an Asset caused by factors external to the Asset. These may include such things as the economics of the industry; availability of financing, loss of material and/or labour sources, passage of new legislation; changes in ordinances, increased cost of raw materials; labour or utilities (without an increase in product price); reduced demand for the product; increased competition; inflation or higher interest rates; or similar factors.

VIII. Limiting Conditions & Critical Assumptions

The appraisal report and the above noted recovery are based on and subject to the following conditions, qualifications, assumptions, and limitations:

Valuation Date

The Opinion of Value and other conclusions expressed herein shall be valid as of the Valuation Date identified in the section I above.

Intended Use & Purpose

The appraisal is intended for the sole use of ABBEY and not intended for general circulation or distribution, nor is it to be reproduced or used for any purpose other than indicated in section I above.

Title to Assets

No investigation of title to any of the Assets has been made by Fuelled Appraisals and ABBEY claim to same has been assumed valid. In addition, no investigation has been made by Fuelled Appraisals to

determine if there are any liens, security interest, or other encumbrances registered against, or attaching to any of the Assets. Unless otherwise noted in this report, title is assumed to be good and marketable.

Condition of Assets

Unless explicitly stated otherwise, all Assets have been assumed by Fuelled Appraisals to be in good working order and functioning condition, and subject to industry standard maintenance and repair programs. Testing and/or confirming the status of individual Assets was beyond the defined scope of work.

Information & Data Provided by Others

For determining its opinion as to recovery values of the Assets, Fuelled Appraisals has also relied upon certain supplemental information provided by ABBEY and has assumed, without independent verification, all such information was reasonably prepared, accurate, and complete in all material respects.

Change in Market Conditions

The recovery values set out in this Appraisal are based on Fuelled Appraisals assessment of current economic conditions. The amount that could be realized from the sale and disposition of the Assets may be affected by changes in economic conditions.

Fuelled Appraisals shall not be responsible for changes in market conditions and no obligation is assumed to revise this report to reflect events or conditions which occur after the Valuation Date. Additionally, Fuelled Appraisals cannot be held responsible for the inability of the owner to locate a purchaser at the appraised value.

Extraneous Conditions

The amount that could actually be realized may also be affected by factors such as changes in the condition of the Assets and the occurrence of acts of Gods, riots, civil disturbances, strikes, lock-outs, acts of war, terrorism, insurrection, or other events that may be beyond the control of the seller and/or the buyer.

Report Format

This appraisal is presented in an Appraisal Report format. As such, it presents only a summary or limited discussion of our opinion of value. Supporting documentation concerning the data, reasoning and analyses is retained in Fuelled Appraisals files. The depth of discussion contained in this report is specific to the needs of the Client and for the intended use of this report.

Report Conformance

This appraisal has been made in conformance with, and is subject to, the requirements of the CPPA, and reflects the best judgement of the appraiser.

Confidentiality

This report and supporting file documentation are confidential. Neither all nor any part of the contents of this appraisal (including the report and the supporting file documentation) shall be disclosed to any party, or conveyed orally or in writing through advertising, public relations, news, sales, or in any other manner without prior written consent and approval of both Fuelled Appraisals and the Client.

Licenses & Law

It is assumed all required licenses certificates of occupancy, consents, or other legislative or administrative authority from any municipal, provincial, or federal government or private entity or organization have been, or can readily be obtained, or renewed for any use on which the value estimated provided in this report are based.

Full compliance with all applicable federal, provincial, and municipal zoning, use, occupancy, environmental, safety codes, and similar laws and regulations is assumed, unless otherwise stated.

Relied Upon Information

While Fuelled Appraisals believes the information gathered and used for this Appraisal, whether through written, oral, electronic, or other means, to be both reliable and correct, Fuelled Appraisals does not warrant the reliability or correctness of the information and assumed no liability whatsoever for any errors and/or omissions.

XI. General Service Conditions

Fuelled Appraisals reserves the right, but shall be under no obligation, to review the recovery values set out in this Appraisal and all calculations included or referred to in, or made for the purpose of, this Appraisal. Should Fuelled Appraisals consider it necessary to revise this Appraisal considering any information existing as of the date of this Appraisal, which becomes known after that date, it may do so.

Fuelled Appraisals assumes no responsibility or liability for losses suffered by any parties because of the circulation, distribution, publication, reproduction, or other use of this report contrary to the provisions of this paragraph without prior written authorization from Fuelled Appraisals.

The liability of Fuelled Appraisals to the Client in relation to this Appraisal, regardless of the basis of liability or form of action, shall in no event exceed the total fees paid by the Client to Fuelled Appraisals for this Appraisal. In no event shall Fuelled Appraisals be liable for lost profits, or any indirect, special, incidental, consequential or punitive damages, however caused, whether for breach of contract, negligence or otherwise, and whether or not Fuelled Appraisals has advised of the possibility of such damages. These limitations will apply notwithstanding any failure of the essential purpose of any limited remedy.

X. Competency

Fuelled Appraisals must disclose if there is a lack of knowledge and/or experience that would not allow us to complete this appraisal in a competent manner or to develop credible results.

Fuelled Appraisals and the appraiser performing this appraisal have performed valuations of assets like the Subject Assets for various purposes in the past. In addition, the appraiser performing this appraisal has the appropriate knowledge and experience to be able to develop credible results for the purpose and use outlined in this report.

Certifications

The undersigned appraiser certifies that, to the best of their knowledge and belief:

- 1) The Statements of fact contained in this report are true and correct

- 2) The reported analyses, opinions, and conclusions identified herein are impartial and unbiased, and are limited only by the Limiting Conditions and Critical Assumptions identified above. Values rendered are an opinion of the appraiser and are not a guarantee of value.
- 3) Neither the appraiser, nor any employee of Fuelled Appraisals, possess any present or prospective financial interest in the valued Assets, or any personal interest with respect to the parties involved.
- 4) Neither the appraiser, nor any employee of Fuelled Appraisals, possess any bias to the valued Assets or the parties involved with this assignment.
- 5) This engagement was not contingent upon developing or reporting predetermined results.
- 6) Compensation for completing this valuation was not contingent upon developing or reporting predetermined opinions of value or direction in value favouring the cause of the client, the attainment of a specified result, or the occurrence of a subsequent event relating to the intended use of this report. Said compensation does not however cover further expenses relating to attendance at hearings, judicial or otherwise, although such attendance may always be available at Fuelled Appraisals standard rates.
- 7) This report and all analyses, opinions and conclusions expressed herein have been prepared in conformity with the CPPA guidelines.
- 8) The data used in this report was obtained from sources believed to be reliable. All known facts that have bearing on the values presented in this report have been considered, and no facts of importance have been intentionally omitted herein.
- 9) A personal inspection of the valued Assets has not been executed.
- 10) No one other than the undersigned and listed personnel provided significant appraisal assistance in the preparation, analysis, opinions, and conclusions concerning the property that is set forth in this appraisal report.

We trust the above is to your satisfaction. Should you require additional information, please do not hesitate to call the undersigned.

Respectfully yours,

Fuelled Appraisals

2.0 About Fuelled

Fuelled's Guiding Principals

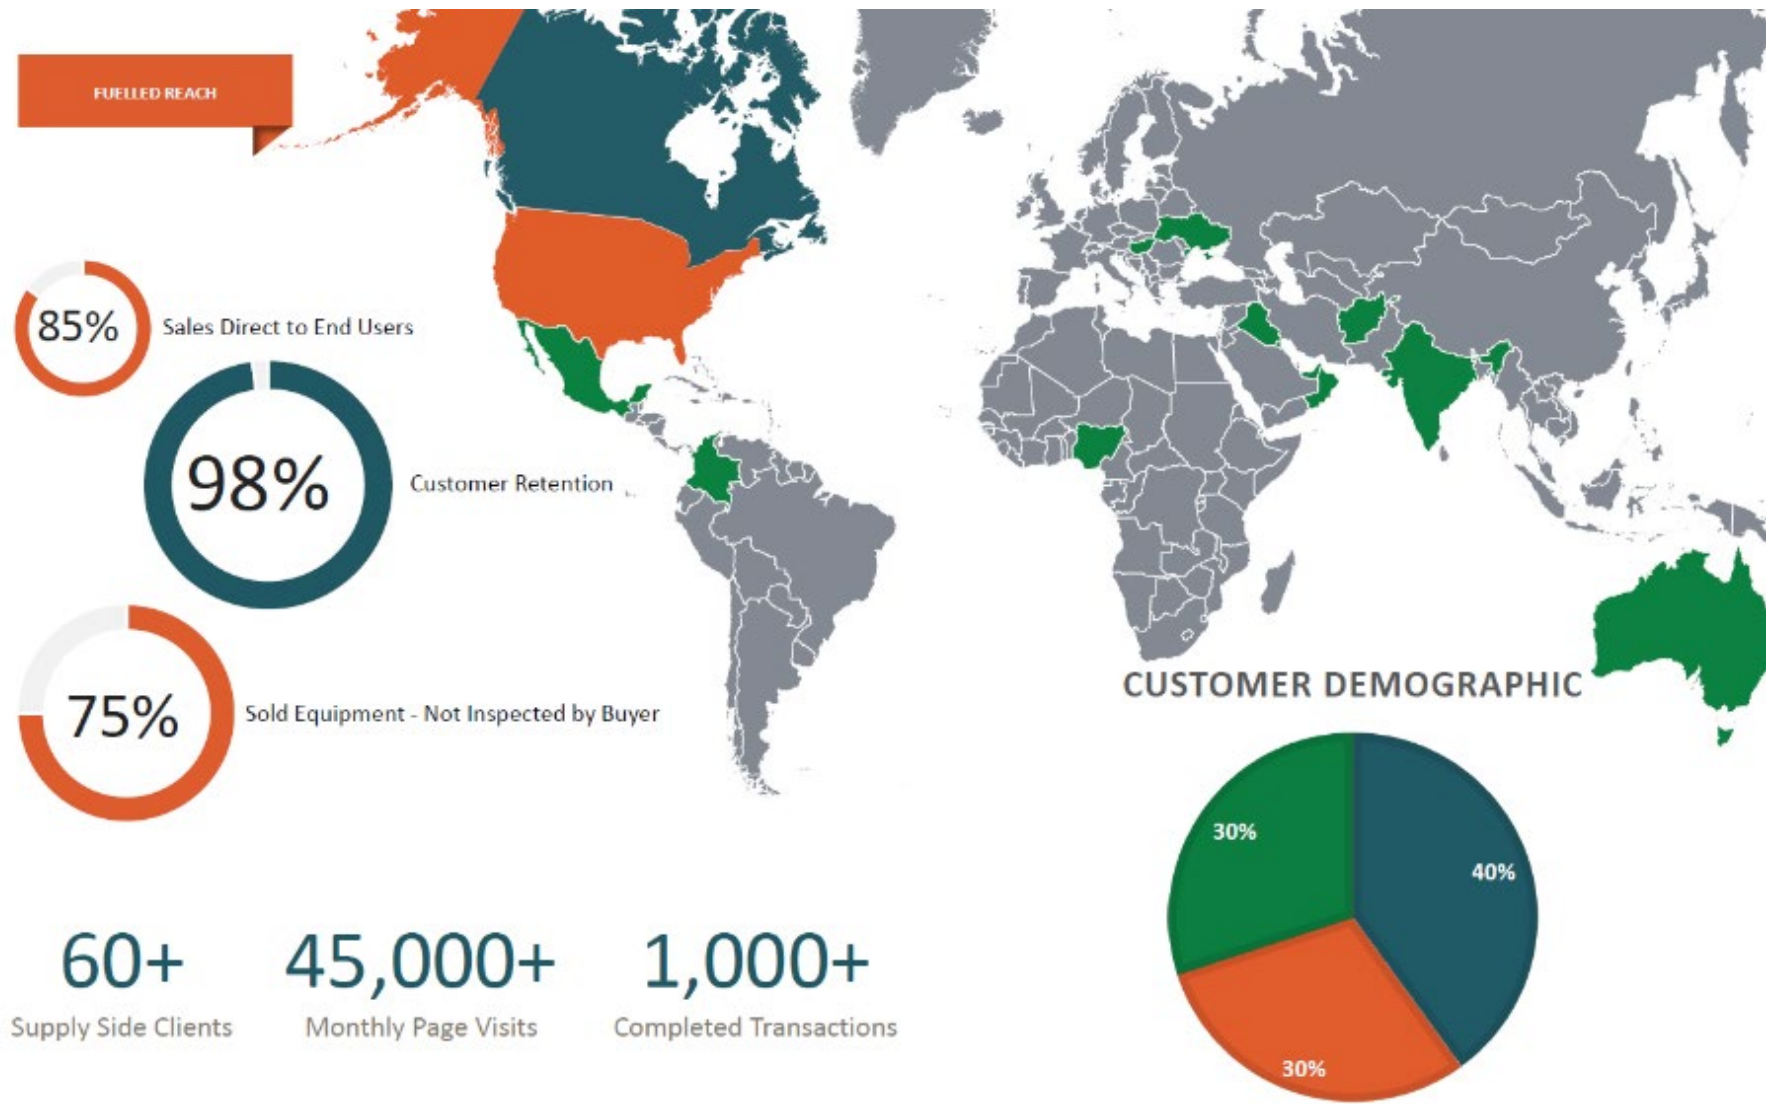

Values and Purpose

FAMILY	We help each other solve problems, encourage each other to grow in life, challenge each other to be better and ensure everyone makes it home safe.
INTEGRITY	We stand behind our brand, are proud of who we are, and will always do what's right.
TRANSPARENCY	We conduct business naked with the lights on. Nothing to hide.
FUN	We work hard and play harder.

“Having fun connecting the world”

Fuelled Marketplace Statistics

Fuelled’s business model and technology platform allows our vetted and trusted partners/equipment owners to monetize surplus equipment efficiently and effectively.

Fuelled Marketplace Abridged Client List

MARKETPLACE AT A GLANCE

This is **Exhibit G** referred to in the Affidavit of JAMES GETTIS, sworn before me in the City of Calgary, in the Province of Alberta, on this 1st day of October, 2021.

A Notary Public. A Commissioner for Oaths in and for
the Province of Alberta.

Hoy, Kevin

From: Hoy, Kevin
Sent: Monday, September 27, 2021 8:21 PM
To: M. Kim Anderson; Alexander Shalashniy
Cc: leanne.lang@gov.sk.ca; 'Ryan Nagel'; Pawlyk, Jerritt; SUTHERLAND, Ian; Frith, Craig; 'Victor Kroeger'; Rick Anderson
Subject: Abbey Resources Corp. - pending surplus equipment sales

Kim and Alexander:

Further to the Abbey Resources Corp. ("**Abbey**") restructuring matter, we are writing to discuss issues pertaining to pending equipment sales.

As has been discussed in Affidavits filed by James Gettis in these proceedings, Abbey is seeking to close pending transactions for the sale of certain surplus equipment. For certainty, the equipment in question was notionally transferred to Optimum Petroleum Services Inc.

Two sales are pending at this time, both involving surplus equipment located within the R.M. of Miry Creek.

We wish to reach out to the Ministry of Energy and Resources and the R.M. of Miry Creek in advance of the forthcoming October 7 hearing in these proceedings, as the pending sales may affect the interests of both parties.

Abbey intends to seek Sale Approval and Vesting Orders ("**SAVOS**") that will enable it to close transactions for the sale of the following equipment:

- a Jenbacher J312 natural gas engine to Steel Reef Infrastructure Corporation for a purchase price of \$65,000; and
- a 24" x 10' filter vessel with pump to XTO Energy Inc. for a purchase price of \$14,450.

Abbey is of the view that these transactions are reasonable under the circumstances and are for reasonably fair values.

Based on the appraisal received (which value the assets and will be disclosed in Abbey's forthcoming filings), we anticipate that sale values for these assets (as well as the remainder of Abbey's surplus equipment, for that matter) under a forced liquidation will be significantly less than the values for the currently pending transactions, which were brokered in the ordinary course of business by Fuelled Inc., a broker hired to market Abbey's surplus equipment.

We do not propose to seek a distribution order for sales proceeds at this time. Rather, the funds will be taken into trust and will be held by the Monitor. As is provided for in the Template Sale Approval and Vesting Order (which Abbey will not be seeking to alter materially), encumbrances upon the property sold to the vendor will attach to proceeds from the sale taken into trust.

Once you have had the chance to review this matter with your clients fully upon your receipt of the appraisal included in Abbey's filings, we kindly ask that you advise as to whether your clients are supportive of these potential sales on the understanding that proceeds will be paid into trust and that the SAVOs will provide that any security your clients held in these assets will attach to sale proceeds. If your clients have any concerns regarding these transactions, we welcome the opportunity to discuss the same in advance of the October 7 hearing.

We look forward to hearing from you.

Best regards,

Kevin Hoy

Dear Mr. Gettis

Re: Request for Pipeline Integrity Risk Assessment

The Ministry of Energy and Resources (ER) is requesting Abbey Resources Corporation (Abbey) conduct a risk assessment of all Abbey pipeline systems within Saskatchewan. Pursuant to Section 3.5 of *Directive PNG034: Saskatchewan Pipeline Code*, operators are required to actively maintain the integrity of a pipeline in accordance with CSA Z662 and the Directive. Recent incident data suggests that Abbey has incurred a high rate of failure on its pipeline systems, approximately three times higher than other operators of comparable size. Field observations also indicate that a number of failures have occurred near or at recent spill locations. As a result, ER has concerns related to the integrity of Abbey's pipeline infrastructure.

The purpose of this risk assessment is to identify and prioritize risk so that Abbey can develop a mitigation plan that can effectively reduce the number of incidents. ER recommends that Abbey follow Annex B of CSA Z662:19 and ASME B31.8S-2020 when preparing their risk assessment.

The risk assessment shall be signed and sealed by a professional engineer who is registered with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and who is competent in the area of pipeline integrity risk assessments.

ER is requesting that Abbey provide the results of this risk assessment by **December 6th, 2021**. Any questions can be directed to me at Chad.Lang@gov.sk.ca.

Sincerely,

Chad Lang, P.Eng.
Manager, Pipeline and Regulatory Section
Energy Regulation Division, Ministry of Energy and Resources

This is **Exhibit I** referred to in the Affidavit of JAMES GETTIS, sworn before me in the City of Calgary, in the Province of Alberta, on this 1st day of October, 2021.

A Notary Public. A Commissioner for Oaths in and for
the Province of Alberta.

Subject: [EXTERNAL] RE: [EXTERNAL] RE: [EXTERNAL] RE: [EXTERNAL] TSASK Annual Renewal Invoice

Hi Twyla,

Further to the voicemail message I left you yesterday, we would accept the partial payment towards the annual licensing however we would be unable to issue the Licence to Operate certificates for your vessels until the full balance is submitted.

The provincial regulations state that if you are operating equipment within Saskatchewan that the annual fees must be paid. Do you know when the other portion of the fees would be remitted?

Thanks,

Denny Stubel

Hi Denny,
I have left you a voice mail message.
As this is an annual invoice, we are able to pay the August 14, 2021 to June 30, 2022 portion of the invoice. The July 1, 2021 to August 13, 2021 amount will be stayed under the court order.
Please send me your banking information and I will wire the funds for payment to you.
Thank you
Twyla

Subject: [EXTERNAL] RE: [EXTERNAL] RE: [EXTERNAL] TSASK Annual Renewal Invoice

Hi Twyla, thanks for the email.

As much as we can sympathize with the current situation that Abbey Resources is in, if you are continuing to operate (as stated in the MNP release you included in your email) your equipment needs to be licensed in order to operate. This is based on the Saskatchewan Boiler and Pressure Vessel Act (1999).

As such we would request that payment for the annual licences be made on or before September 10, 2021 to avoid any further action or penalties being assessed.

Thanks in advance,

Denny Stubel

Subject: Re: [EXTERNAL] RE: [EXTERNAL] TSASK Annual Renewal Invoice

**** CAUTION: This email originated from outside of TSASK ****

Hi Denny,
You should be getting notification in the mail in regards to the following.

Abbey Resources Corp. (“**Abbey**”) is currently undergoing Court-supervised restructuring in proceedings under Canada’s *Companies’ Creditors Arrangement Act* (the “**CCAA**”) pursuant to an August 13, 2021, Order granted by the Court of Queen’s Bench for Saskatchewan.

MNP Ltd. (the “**Monitor**”) has been appointed by the Court of Queen’s Bench for Saskatchewan to serve as Monitor to Abbey during the course of its restructuring. Additional information regarding Abbey’s restructuring be found on the website of the Monitor at <https://mnpdebt.ca/en/corporate/corporate-engagements/abbey-resources-corporation>.

Abbey continues to carry on business as a going concern without disruption during the course of its restructuring. Please note that Abbey intends to and is required by law to pay all of its accounts and invoices rendered subsequent to August 13, 2021, as they become due in the ordinary course of business. However, Abbey is not able to pay any accounts or invoices rendered prior to August 13th, 2021. Those prior amounts will form part of a plan of arrangement that will be presented to Abbey’s creditors in due course.

Any amounts that are due after August 13, 2021, will be paid as they come due. The amounts such as the Invoice in question, are stayed by court order until a further date.

Let me know if you have any further questions.
Thanks
Twyla

Subject: [EXTERNAL] RE: [EXTERNAL] TSASK Annual Renewal Invoice

Hi Cassia, thanks for the update.

Do you know an expected payment date? I have to provide an update on our larger unpaid invoices to the Chief Inspector at the end of this week as he issues orders to have vessels sealed out of service.

If we know when the payment will arrive I'm sure there will be no problems.

Thanks,

Denny Stubel

**** CAUTION: This email originated from outside of TSASK ****

Hello Denny,

The invoice is shown as approved in our system.
Next, it will be sent to accounting and put on an upcoming cheque run.

Thanks,
Cassia

Subject: [EXTERNAL] TSASK Annual Renewal Invoice

Good morning Cassia, I hope all is well.

I'm hoping you can point me in the right direction to have the attached invoice paid.

It is for the annual Licence to Operate certificates for the pressure vessels operating in Saskatchewan that was due July 1, 2021. Any help you could provide would be appreciated.

Thanks in advance,

Denny Stubel

Attention: William J. Scott

Dear Sir:

Re: Q.B. No. 733 of 2021, Abbey Resources Corp. v Technical Safety Authority of Saskatchewan

We act as counsel for Abbey Resources Corp. ("**Abbey**"). We are writing in regards to the grant of licensure under *The Boiler and Pressure Vessel Act, 1999*, SS 1999, c B-5.1., (the "**BPVA**") by the Technical Safety Authority of Saskatchewan ("**TSASK**").

On April 26, 2021, TSASK provided Abbey with Invoice # BR-00144029 in the amount of \$10,793.00 representing fees for Abbey's license to operate 135 items of equipment between July 1, 2021, and June 30, 2022. Abbey failed to pay the said invoice upon its July 1, 2021, due date.

Abbey was at that time insolvent and remains insolvent as of the date hereof. In light of its insolvency, Abbey entered into Court supervised restructuring proceedings under the *Companies' Creditors Arrangement Act*, RSC 1985, c C-36. (the "**CCAA**") on August 13, 2021. We have enclosed herewith an August 13, 2021, Court Order (the "**Initial Order**") granted by the Court of Queen's Bench for Saskatchewan. We note that all provisions of the Initial Order were extended until October 7, 2021, by way of a further Court Order, dated August 23, 2021. As such, the Initial Order remains in effect as of the date hereof.

Note that the Monitor appointed by the Court in Abbey's CCAA proceedings is MNP Ltd., whose representative, Mr. Victor Kroeger, is copied on this correspondence. Additional information relating to Abbey's CCAA proceedings generally may be found on the Monitor's website at mnpdebt.ca/abbeyresources.

We are mindful of the fact that regulations made under the BPVA requires annual payment of licensing fees to be made by Abbey to TSASK as a condition of Abbey's licensure under the BPVA. However, we note that Abbey is legally prohibited by the Initial Order from making payments to any of its creditors in respect of debts owing by Abbey as of the effective date of the Initial Order. We draw your attention to paragraph 10 of the Initial Order:

10. Except as specifically permitted herein, the Applicant is hereby precluded and enjoined, until further Order of this Court, from:

(a) making any payments of principal or interest thereon or otherwise on account of amounts owing by the Applicant to any of its creditors as of the date of this Order;

Notwithstanding its capacity as a regulatory body, TSASK is a creditor of Abbey. As Invoice # BR-00144029 came due and payable prior to August 13, 2021, Abbey is legally prohibited by paragraph 10 of the Initial Order from paying it in its entirety.

While Abbey is unable to pay the entirety of Invoice # BR-00144029, we have determined, in consultation with the Monitor, that Abbey is able, and is indeed required, to pay a prorated portion of Invoice #BR-00144029 corresponding to the period between August 13, 2021, (i.e., the date of the Initial Order) and June 30, 2022. We calculate the prorated portion of the invoice to be \$9,491.92. The difference between this figure and the full value of Invoice # BR-00144029 is an unsecured debt owing by Abbey, which TSASK may claim at the time Abbey presents its plan of arrangement to its creditors in the CCAA proceedings.

As you may be aware, Abbey previously contacted TSASK to discuss this issue and has endeavoured to pay TSASK this amount. However, Abbey has been advised by a representative from TSASK that TSASK would refrain from granting Abbey licensure under the BPVA until Abbey makes full payment of Invoice # BR-00144029.

Please be advised that pursuant to the Initial Order, TSASK is prohibited from refusing to grant Abbey licensure under BPVA on the grounds that Abbey has not paid Invoice # BR-00144029 in full. The Initial Order expressly provides that no regulatory body, such as TSASK, shall alter, interfere with, or cease to renew any license or permit held by Abbey. We draw your attention to paragraph 17 of the Initial Order which reads as follows:

17. During the Stay Period, no Person shall accelerate, suspend, discontinue, **fail to honour**, alter, interfere with, repudiate, terminate or cease to perform any right, **renewal right**, contract, agreement, **licence or permit in favour of or held by the Applicant**, except with the written consent of the Applicant and the Monitor, or leave of this Court. For greater certainty, any party to a surface lease with the Applicant shall continue to provide the Applicant access to any lands outlined in those surface leases.

[Emphasis added]

Accordingly, we kindly ask that you confirm that TSASK will accept the sum of \$9,491.92 representing the prorated portion of Invoice # BR-00144029 and that TSASK will grant Abbey its required licensure under the BPVA. Should you fail to provide such confirmation, it will be necessary for Abbey to seek declaratory relief against TSASK in Court in the ongoing CCAA proceedings. In this event, Abbey would reserve the right to seek costs against TSASK.

We trust this clarifies the legal position between Abbey and TSASK. Please do not hesitate to contact the undersigned directly should you require any clarification respecting the contents of this letter. We would encourage you to discuss this matter with TSASK's solicitors should you have any questions respecting TSASK's legal position vis-à-vis Abbey.

We look forward to your reply and we thank you for giving this matter your prompt attention.

Yours truly,

DLA Piper (Canada) LLP
